

Capacity When and Where You Need It

No matter how tight the market or time of year, CapAssure LX makes certain your shipments are picked up and delivered when you need them.

At CLX Logistics, we leverage our industry expertise, extensive carrier network, and best-in-breed technology to get your shipments delivered on time with greater visibility and efficiency.

Drive Performance with CapAssure LX

With a single contact for booking and tracking orders, our seamless door-to-door transportation options are the ideal shipping solution for companies of all sizes. We can electronically broadcast logistics requirements to the market and identify available trucking assets in the network to quickly match capacity to your needs. With our expertise in transportation logistics, we remove the mystery and stress from every shipment.

CLX Logistics has developed advanced systems to coordinate, manage, and track your shipments safely and affordably across the following modes:

- Bulk (liquid and dry)
- Dry Van TL (OTR, refrigerated and intermodal)
- Specialized (flatbeds, step downs, or double drops)
- Drayage
